### Melrose Nursery Rhyme.

NO. 1.  
"Little Miss Muffet."

Little Miss Muffet  
Sat on a tuffet  
Eating a bale of hay;  
She also drank cider,  
And so frightened the spider  
That he spun no web that day.

Little Miss Muffet  
Painted the tuffet  
Three years ago last May.  
She makes no complaint  
For she used Melrose Paint,  
And the colors are bright to this day.

Little Miss Muffet  
Auctioned that tuffet;  
The bidding ran fierce and high.  
Melrose colors are good  
For tuffets or wood,  
And all were anxious to buy.

All of which goes to prove that if you wish to realize a good price when selling anything you should first give it a coat of Melrose Liquid Paint.

## Roosevelt On Panama Canal

### President Dwells on Probable Effect on Transcontinental Rates.

### Warns the Nation of Effects of Class Legislation on Prosperity.

Sterling, Colo., May 9.—President Roosevelt, in his speech in Denver last night, concluded with the following comment on the Panama canal project: "It is perhaps unnecessary for me to say that I am perfectly aware that many most admirable gentlemen disagreed with me in my action toward the Panama canal, but I am in an unrepentant frame of mind. The ethical conception upon which I acted was that I did not intend that Uncle Sam should be held up. But without regard to that, when the canal comes into operation, I think it will have a very important regulatory effect in connection with the transcontinental commerce of the republic. I think when such is the case, the great railroads will have to revise their way of looking at the interests of certain inland cities.

"As I say, gentlemen, don't misunderstand me. I understand and highly respect the argument from their standpoint and see that they can in all sincerity hold the position, and while I do not think that anything I can say could have any effect in making them alter that position, I have confidence in the effect upon them of the Panama canal. Let me repeat, I have told my views as to what I regard to be the most important matter of international legislation that in the immediate future will be before this people.

Respect for Others Rights  
"I wish to say again that, important though the legislation is, it is nothing like as important as the spirit in which we approach it. If we approach it in the spirit of demagoguery, if we permit ourselves as a people to be deluded into the belief that permanent good will

come to us as a mass, if we attack unjustly the proper right of others because they are wealthy, we shall do ourselves just as much injustice as if we permit an attack upon ourselves because they are poor because they are poor. In times past republic after republic has existed in this world and has gone down to destruction, sometimes because the republic was turned into a government of the poor, who plundered the rich; sometimes because it was turned into a government of the rich who exploited the poor. It made no difference whatever to the fate of the republic which form it took. That fall was just as certain in one case as in the other. It was just as certain to follow the election of a class who plundered another class, whether the class thus given mastery was the poor who plundered the rich, or the class of the rich who exploited the poor.

Confidence in Future  
"The destruction was inevitable in one instance as in the other. We have the right to look forward with confidence hope to the future of this republic because it will not, and shall not, become the republic of any class, either rich or poor, because it will and shall remain, as its founders intended it to be, a government where every man, rich or poor, so long as he did his duty to his neighbor, was given full rights, was guaranteed justice and has had justice exacted from him in return."

### NELSON ASSIZE OPENS.

### Grand Jury Brings in True Bills in Several Cases.

Nelson, May 9.—The spring assizes, civil and criminal, opened here today before Mr. Justice Morrison. W. M. MacDonald, K. C., appearing for the crown. There are three criminal and ten civil cases on the list, about three weeks' work.

Today the grand jury brought in true bills against John Roberts, for attempted murder; Antonio Pera, perjury arising out of a civil case; and T. H. Atkinson, drugist of Ymir, arson.

The trial of Roberts was commenced this afternoon at the Victoria hotel, Silverton, on Jan. 17. Days and others were in the bar-room, and it is alleged that Roberts fired into the room with a rifle from across the road.

In the Atkinson case, over sixty witnesses have been brought here for the crown and both the Roberts and Atkinson cases are exciting unusual interest.

None of the civil cases are of more than ordinary interest.

### BISHOP POTTER AND ACTORS.

Celebrated Divine Criticizes Action of Pittsburgh Y. M. C. A.

New York, May 9.—Bishop Henry C. Potter was the principal speaker at the anniversary meeting of the actors' fund of America, which was held at the theatre. Bishop Potter, who was introduced as "the friend of the theatre and the managers," said in part: "I am here particularly to comment upon the influence of the stage for exerting an influence for good or evil. I believe that the tendency is for good. The men and women prominently connected with your profession use the stage as an inspiration for better living. The moral effect cannot but have a remarkable tendency toward making a more noble character of the actor and actress."

Alluding to the exclusion of two actors from membership in the Y. M. C. A. of Pittsburgh, Bishop Potter said: "I should feel ashamed if I did not here record the action of the Y. M. C. A. of Pittsburgh in their unjust reasoning. I seldom have seen such narrowness. Men of the dramatic profession and the women stand in exactly the same light as the rest of us. There is good and there is bad on the stage as there is in law, in medicine, in Wall Street, and in other walks of business and professional life. Character is not grouped according to professions or callings."

### Her Drunken Husband Cured.

A lady, who saved her husband from home, says: "I had for a long time been thinking of trying Samaria on my husband. One day when he came home very much intoxicated, and his wife was very much distressed, I tried the famous Samaria Prescription, and put it in his drink. He suspected a thing, and before I had given him the full course, he dropped drunk and has never been the same. I believe this remedy will cure the worst cases."

## Naturalist and Botanist Here

Dr. G. U. Hay, Editor of Educational Review Compliments City.

Thinks Arboretum Would Be a Fine Adjunct to the Museum.

Dr. G. U. Hay, of St. John, N. B., has been in the city for several days. He is editor of Educational Review, and formerly held an important position in the teaching profession in his province. In addition to being an educational authority, he has for many years occupied a prominent position as a naturalist, and received his honorary degree of Dr. in recognition of his services as a botanist. One of his works of a private character is the creation of an arboretum, in which he has cultivated the trees, ferns, native shrubs and flowers of New Brunswick. He is also author of several school histories, which are in use in the Maritime Provinces. Dr. Hay was waited upon by a Colonist representative for the purpose of obtaining some of his impressions of matters in which he is particularly interested so far as this province is concerned, and was found in an enthusiastic mood, and quite willing to discuss his hobbies.

"My chief object," Dr. Hay said, "in visiting Western Canada is to gather impressions of the country—its people, scenery, resources, the natural history, and its educational facilities. I am greatly impressed with the scenery of the province. The Fraser river canyon, through which I passed, surpasses in grandeur the scenery of the Rockies or the Selkirk range. Taking out the scenery east of the river Rhine, the scenery on the Fraser is superior in grandeur to that of the famous river. The fine park at Vancouver, the restfulness of the few days spent at New Westminster, and the varied beauties of mountain and landscape and the sea and harbor views about Victoria, have been to me like a series of adventures in Wonderland.

It would seem that the scenic beauties and the rare climate of this far western city of Victoria have only to be seen and known to make it one of the greatest tourist resorts of the West.

"Though I have been here but four days I have met more people hailing from Eastern Canada than at any other point on my journey to the West. That journey has been a very deliberate one, for it is four weeks since I left St. John, and I have stopped off at all the principal places on the route. Returning I expect to go through the Okanagan and Kootenay countries, and learn something of the capabilities of those in fruit-growing, agriculture and mining.

"I have been shown the principal points of interest about the city, and have been particularly charmed with the scenery of the suburbs, the harbor and the city, and the great natural advantages of the adjacent harbor of Esquimalt. But a picture that will always remain with me, reminiscent of your beautiful city, is its parliament buildings. I have never seen anywhere a more symmetrical group of buildings or where symmetry and usefulness of detail have been more admirably combined. The museum and its contents have especially appealed to me as a naturalist. I may see here in a few hours a collection that is almost purely provincial in character showing its plants, its birds, insects, fishes, and the rocks and minerals illustrative of the geological formation and mining wealth of the province. The finishing of the walls and rooms of the parliament buildings in the native woods, such as the cedar and Douglas fir, both of which lend themselves so admirably for decorative purposes, is another attractive feature which appeals to a stranger.

"Those who have been instrumental in gathering so complete and representative a collection of the natural history of the province have done a work—and have done it well—that should earn them the gratitude of every citizen.

And especially of the boys and girls who are growing up in this city. I have learned that the founder of this fine collection was Mr. John Fanning, whose memory it was proposed, I understand, to perpetuate by offering a series of prizes every year for the best written essays on the natural history and resources of the province. No better plan could have been devised, nor one more in harmony with the purpose of the founder of this museum, than to maintain in

## BECAUSE PROPERLY CURED

Y Pharaohs have been called a "Health cigar" and this is why: Every leaf of tobacco I work into Pharaoh is absolutely free of "gum."

You must know that a "gummy" tobacco will make a poor smoke and act injuriously on the throat and stomach. The gum, dissolved by the heat of combustion, is drawn into the mouth—becomes mixed with the saliva and finally reaches the stomach.

The membrane that lines your throat and stomach is pretty tough—but it won't stand the harsh, irritating action of this dissolved gum.

You'll have sore throat if you smoke the "gum" cigar—you'll have heartburn, indigestion, and a disagreeable taste in your mouth from an injured stomach.

With every particle of gum properly "sweated" cured and aged out of the leaf I use as filler for my Pharaoh, I can guarantee you a pure, cool, sweet, fragrant smoke—free from disagreeable tastes and injurious actions on the inner man.

## Appetite Was Poor.

Dizzy Most of the Time.

Could Not Sleep at Night.

Many people are unaware of having anything wrong with their heart or nerves till some little excitement or overwork makes them feel faint and dizzy, or perhaps simply going up or down stairs causes dizziness and specks to float before the eyes. People troubled in this way should heed the warning, and not fail to take treatment before something more serious occurs.

For all heart and nerve troubles there is nothing so equal

## Milburn's Heart and Nerve Pills.

We do not claim that they will cure chronic heart disease, but we do claim that they will strengthen the weak heart, and build up the shaky nerve system.

Here is what Mrs. Sidney Hoffman, Hillsdale, Ont., says:—

"I was troubled greatly with my heart, and was so very nervous that the least little thing startled me.

"My appetite was very poor; I could not sleep at nights, and was dizzy most of the time. I took three boxes of Milburn's Heart and Nerve Pills, and I am very pleased to say that they did me a wonderful lot of good."

Milburn's Heart and Nerve Pills are 50 cents per box, or 3 for \$1.25. All druggists, or mailed direct.

this way an interest in it and a desire to extend its usefulness.

"If nature-study in our schools is ever to be a reality—not merely a name—it must be a sympathetic study of our surroundings and natural history, not facts about them from books, which is just the way not to study nature. When our boys and girls in Canada learn to know our plants, our insects and birds; when they learn to love our hills and dales, rivers and lakes, from a study of their formation, their noble scenery, and the animated life that is found among them, then it will be that they have discovered the true nature of the world around them, the boy or girl who understands his own surroundings in this way will grow up a loyal citizen with a love of home and this Canada of ours. This is a kind of loyalty that needs to be patiently and insistently cultivated.

"Speaking in this connection, I would like to mention the surprise it has been to me to see not only the distinctive character of our British Columbian flora, but the wide range of plants that are either indigenous or may be cultivated here. I know of no place in Canada that offers a more tempting or available situation for

A Great Botanic Garden than the city of Victoria or its suburbs. The variety of the plants, indigenous to the British Columbia, Japan, China and other countries, that grow and flourish here is something that strikes the beholder with wonder when he reflects that he is but a little below the 49th parallel of latitude. A botanic garden in Victoria would not only add another attraction to those already existing in Victoria, but it would become a source of world-wide interest, and especially a source of connection with it a native arboretum, showing to visitors and to future generations the noble forest trees of British Columbia, its ferns and its native wild flowers, a mother garden that would be a source of pride to the city and a source of instruction to the people.

"It has been a wish with me for many years to see the early spring flowers of British Columbia in a place of profusion and variety of color, of which I have heard so much. It has been a little disappointment to me that I have been able only partially to gratify that wish, because my visit has been confined chiefly to cities and towns instead of the open country. I hope the next time I visit Victoria, I shall see not only a reproduction of the Kew Gardens, of course on a less expensive scale, but also an arboretum, in which one may see growing the native trees, and see growing the native flowers, and the garden, in which one may revel for a day or so among the ferns and wild plants of your province.

"I met at Revelstoke a few days ago the teachers of British Columbia in their annual institute, and for three days listened to the papers and discussions on the educational questions which are of interest just now to the teachers of the province. The breadth which characterized these papers and discussions, and the uniform courtesy and harmony that prevailed made a most favorable impression on my mind concerning the character and progressiveness of the teachers of the West. I was greatly interested in the address made by the minister of education, Hon. Mr. Fulton, as it showed

Generous Outlay for Education made in this province. On every hand I see fine schoolhouses with plenty of apparatus, and I see, what is still better, a happy looking, well dressed, well paid and progressive body of teachers. I could wish that, at least, all of the teachers of Canada were paid as generously as the teachers of British Columbia, where the lowest salary is \$3000 a year. I was in a schoolroom where the principal receives a salary of \$1200 a year. I know of very few instances in the East where a lady receives such a large salary as this; and I cannot see that the rate of living is much higher in the West than it is in the East.

"Everywhere through the city that I have visited your schools I have noticed, without any exception, well furnished school rooms, in many instances, well furnished with books, maps, and stationary and pictures made them resemble the rooms of cultivated homes. And, as you would expect to find such surroundings, the scholars impressed me as a bright and good mannered lot of students.

"There is one point that I should like to refer to in closing, and that is the slight knowledge we possess in the East concerning the history and resources of British Columbia. There is much material in your legislative library from which useful material could be gleaned and put in easy interesting chapters for popular reading and supplementary reading for schools. It is a prospect of such historical material becoming available, not only for British Columbia, but for all Canada."

Johnson Street Paving.—The granite blocks to be used as curbs in the paving of Johnson street with wooden blocks on the section between Douglas and Wharf streets, have been ordered by the city along that thoroughfare preparatory to work being commenced in a few days. The merchants of Johnson street are anxious that the work should be taken in hand and completed as soon as possible, and as weather conditions are now apparently settled, no obstacle stands in the way of the undertaking being gone on with at once.

## CLOSE OF EPWORTH LEAGUE CONVENTION

Next Meeting in Vancouver—Officers Elected for Ensuing Year.

At the opening session yesterday morning of the Epworth League and Methodist Sunday School Association, after devotional exercises a Bible reading was given by Rev. A. J. Brace, of New Westminster, Prof. Sippell, B. A., D. D., being absent. It was taken from the first chapter of St. John and was full of interest and instruction.

"The Sunday School a Direct Evangelistic Agency" was the subject of a paper by Mr. Percy W. McLean, of the Spring Ridge Sunday school. This proved very interesting, the author in several instances quoting from the work of the late Prof. Henry Drummond.

An open parliament was then formed, with Rev. Mr. McIntyre, of Victoria West in the chair. The question considered was Sunday school work and the relationship of the pastor to the Sunday school and teachers.

At the afternoon session officers were elected as follows: President, H. W. Baker, Vancouver; secretary, C. S. Keith, New Westminster; treasurer, Mr. Drast, Vancouver; vice president, J. B. McLean, Victoria; Miss Knight, Chilliwack; Miss Montith, Victoria; Mrs. L. W. Mowat, Nanaimo; superintendents of primary work, Miss Walker, Kelowna; George Lewis, Kamloops; L. Evans, Kamloops; B. R. Bragg, Victoria.

The following resolutions were passed: Moved by R. J. McIntyre, and seconded by Mr. Keith, and resolved:

We, your committee, in resolutions, desire to place on record the encouragement which we feel in the fact that so many of our leagues are interested in missions, and are actively engaged in the movement for missions. We regret that this cannot be said of them all; therefore we recommend that the matter be brought before each league or pastor or president, and that each and every one of them be earnestly requested to join in the great movement.

Moved by Rev. A. J. Brace, seconded by J. B. McLean, that in view of the need of deeper spirituality in the churches of our conference, both among the young and older people, and knowing the readiness with which the Epworth League and other enthusiastic general conference officers to assist, we petition conference at the coming session in Vancouver to devise ways and means of arranging a summer school at New Westminster, making use of the Columbian College building and grounds during the summer vacation, and that the present aim be the development of the prayer life and the systematic study of Bible and missions.

Moved by T. W. Martindale and seconded by Rev. A. J. Brace: That this Sunday school and Epworth League, in session assembled, by resolution request the coming conference as follows: This convention is profoundly convinced that the decreasing attention paid to Bible study, especially among our young people, is a matter of alarm, and calls for very serious thought and attention. We would respectfully urge the conference to pronounce upon this matter, and would humbly suggest as a long step to the remedy, that our ministers give special attention to this tendency from time to time in the pulpit.

We beg to make the following suggestions:

(a) That more attention be given to "expository preaching" especially on Sunday morning.

(b) That the attention and interest of the young people be drawn to this vital question through the Sunday school and the league.

The next convention will be held in the city of Vancouver.

After the customary votes of thanks the session closed.

## THE CONFERENCE ON THEOLOGY

Interesting Proceedings at Yesterday's Meeting of Presbyterian Divines.

On the second day of the Presbyterian conference on theology, Dr. Milligan delivered a very interesting discourse on "The Discipline of the Teacher," and a very instructive paper on Hosea was read by Rev. J. Clark, of Calgary. Rev. G. A. Wilson, B. A., occupied the chair, and the discussion which followed was taken part in by Rev. P. Henderson, M. A., Rev. W. Burton, B. A., Dr. W. Taylor and Rev. A. Grant.

At the afternoon session Rev. Dr. Milligan gave his third lecture on "Preaching" to a large gathering of ministers; and in a very vivid way urged the ministers to do original work, and related some of his own experiences in sermon making. These books he had found useful: Matthew Henry Elliott, Hastings, Biblical Dictionary, Crozier's New Testament, Gower's Bible, Broadman's Bible, and many useful hints were given to the ministers as to the conduct of their work.

The Rev. J. F. Ferguson of Nelson next read a valuable paper on the "Place of the Evidence of Our Lord's Resurrection in Christianity," and the views of Harnack, Abbot, Wendt, and Henson were brought under review.

A discussion opened by Rev. J. McCay, M. A., and was taken part in by quite a number. All felt that had time permitted it, a very thoroughgoing debate would have been initiated; as it was, things were quite lively for a time, showing that even the most recent and up-to-date theories are being investigated by many of the ministers. Amongst those who contributed to the discussion were Dr. Milligan, Rev. Laird, Taylor, Ewing, Clay and Ferguson.

A committee was appointed to bring in a report tomorrow regarding the next conference.

A large and interested audience gathered to hear a lecture on the great Scottish reformer, John Knox, by the Rev. J. K. Wright, B. D., of Vancouver. The chair was taken by the Rev. Dr. MacRae of Victoria.

The lecturer dealt with the great reformer and his work in a masterly manner, and greatly interested the audience. Short speeches were also delivered by the Rev. Dr. Herdman and Rev. G. T. Ferguson of Nelson. The programme today is as follows:

10 a. m. to 12 a. m.—"The Prophet Isaiah," Rev. J. S. Ferguson, B. D., Didsbury. Discussion opened by Revs. A. M. Gordon, B. D., Lethbridge, and J. E. Hogg, 12:30 p. m.—"Higher Criticism: Its Truth and Dangers," Rev. Dr. Milligan.

3:30 p. m.—"Are the Present Methods of Church Activity Best Calculated to Advance Christianity?" Rev. L. W. Mowat, D. D., Vancouver. Discussion opened by Revs. J. S. Henderson, New Westminster, and J. C. Herdman, D. D., Calgary.

8 p. m.—"The Heart of the Matter," Rev. Dr. Milligan.

Are you the fellow who says, "I don't know?"

## B. C. ELECTRIC RAILWAY.

Proceedings at the Recent Shareholders' Meeting in London.

An extraordinary general meeting of the British Columbia Electric Railway Company, Ltd., was held at Winchester House, Old Broad Street, London, on April 19, to approve an agreement providing for the electrification and operation by this company of the railway line from the city of Vancouver to Steveston, Delta Island, to increase the capital to £1,000,000 by the creation of 150,000 new shares at £1 each, and to adopt new regulations.

The chairman (Mr. R. M. Horne-Payne) said the leading matter of interest to the shareholders was the completion of the Vancouver power tunnel. He had hoped that it would have been finished by that date, so that he might have had the pleasure of announcing the fact. However, he thought it safe to say that it would be finished within the week, unless something unforeseen occurred. The completion of the tunnel marked the successful termination of one of the finest electric installations ever contemplated—unique in its great tunnel through 2½ miles of granite containing several thousand feet high and unique in that the power was conducted high overhead over navigable waters. It also marked the moment when the power would be turned on, once and for all, to carry the whole of the company's load in the mainland of British Columbia. The immediate results of the water power would be seen, he thought, from now on, in the monthly traffic. One of the immediate results was that meeting, in order to approve the contract that the shareholders had been asked to pass, the Canadian Pacific Railway. The contract was really in the nature of a sale of power, and should be satisfactory to all parties. The contract, moreover, was a very wide bearing in the future, as it it worked but as successfully as the directors anticipated, it would, no doubt, be brought into force over other parts of the Canadian Pacific system. It had been widely assumed that the directors were about to make a further issue of £150,000 of new share capital. This was not so. The authorized capital had never been increased as part of a scheme of rearranging and enlarging their organization, which had become necessary owing to the continued increase in the company's business, and the directors were now making the shareholders aware of the new regulations which the shareholders were invited to approve by special resolution. Encouraged by the very satisfactory results which they were deriving from the purchase of the Vancouver Gas Works, they had arranged to purchase, at a fair price, most of the shares of the Victoria Gas Works.

The resolutions submitted were unanimously agreed to.

WHOOPING COUGH.

The quick relief afforded by Chamberlain's Cough Remedy in cases of whooping cough, makes it a favorite with the mothers of small children. It liquefies the tough mucus, making it easier to expectorate, keeps the cough loose and counteracts any tendency toward pneumonia. The remedy has been used in many epidemics of whooping cough and always with perfect success. There is no danger whatever from the disease when it is fully given. It contains nothing injurious and may be given as confidently to a baby as to an adult. For sale by all druggists.

## Local News.

Victoria Clearing House.—The total clearings for the week ending May 9, 1905, were \$807,917.

No. 4 Attention!—No. 4 company, Fifth Regiment, are specially requested to be on hand at the regimental parade at the drill hall this evening. It has been found impossible to notify all the members, but in view of the approach of camp season and inspection it is expected that every man will turn out.

Brought Valuable Furs.—John Hyland of Telegraph Creek, who arrived from the North on the Princess May on Monday evening, brought down with him a valuable consignment of furs. He reports the outlook for the season's operations in the interior most promising, that section of the country now receiving much attention from prospectors and investors. A great many people are going into the Bulkley valley district.

Rich Find in Yukon.—Amplifying the announcement briefly made in yesterday's Colonist in telegraphic despatches from Ottawa, respecting a rich strike near Dawson, information is now at hand that the phenomenal discovery is of placer gold on Higher creek, a tributary of the Mayo river. Higher creek is about 250 miles from Dawson. Hector Morrison has struck six feet of pay dirt that will average five cents to the pan or over \$6 to the cubic yard. Claims have jumped from a few hundred dollars up to as high as \$50,000 each.

WHOOPING COUGH.

The quick relief afforded by Chamberlain's Cough Remedy in cases of whooping cough, makes it a favorite with the mothers of small children. It liquefies the tough mucus, making it easier to expectorate, keeps the cough loose and counteracts any tendency toward pneumonia. The remedy has been used in many epidemics of whooping cough and always with perfect success. There is no danger whatever from the disease when it is fully given. It contains nothing injurious and may be given as confidently to a baby as to an adult. For sale by all druggists.

## LOCAL NEWS.

**Board of Trade.**—The monthly general meeting of the Board of Trade will be held tomorrow evening at 8 o'clock for the transaction of general business. Among the matters to come up for discussion are the report of the committee on the Indian reserve question, and a resolution re preferential trade with Australia.

**Festival Chorus.**—The organization of the Watkin Mills festival chorus will take place tonight in the schoolroom of the First Presbyterian church, corner Blanchard and Pandora streets. Everyone interested in the project is asked to attend. Those who have a copy of Blijah are requested to bring it, as what time remains after organizing will be spent in rehearsing.

**Doing Good Business.**—The newly inaugurated tram service to the Gorge is proving immensely popular, the patronage already accorded indicating that the branch will be one of the most profitable to the company of the whole system. On Sunday very big crowds were handled, and this will likely be the case all during the summer months. At an early date it is hoped to inaugurate a 10 minute service, instead of the half hour service as at present.

**The New Poundkeeper.**—The new poundkeeper, W. H. Craig who was elected to that position at Monday evening's meeting of the council, will enter upon his duties almost immediately. He was very highly recommended for the position, being endorsed by a large number of business men. He is a brother of the late Wallace Craig, who occupied the position of poundkeeper for several months previous to his death. D. Grech, who filled the position temporarily since April 18, last evening turned over \$103 to the city and reported that he has 49 dogs in the pound. An additional 29 dogs were released by some person a week or so ago.

**At Caledonia Park.**—Although the public had come to the conclusion that the Caledonia Park had seen its last day of celebrity as the scene of sports or entertainment, it is once more to witness the assemblage of hundreds of pleasure-seekers, the advance agent of the Norris and Rowe dog and pony circus having secured it for their exhibition on the afternoon and evening of the 29th instant. The show, which is extremely popular with the boys and girls, as well as with their elders, is reported to be larger and more complete than ever—it grows more and more like one of the big circuses with every year that passes. Only the distinction of cleanliness and order adheres to it. It is, and the owners say always will be, the most refined tented entertainment now before the public.

**Spring Ridge Sewers.**—From conversation with George Jeeves, one of the property holders who objected to the Spring Ridge sewerage plans, it was ascertained yesterday that another delay in the work being recommended by the city, notwithstanding the approval of the project by the provincial board of health. It appears that while Dr. Fagan, secretary of the board, endorsed the plans, he made a stipulation which the council may experience some difficulty in fulfilling. It appears that in all septic tank systems—which is the one to be employed in connection with the Spring Ridge works—at stated intervals the trap in the bottom of the tank is to be "pumped" to permit of the sedimentary deposits running off. Dr. Fagan thinks this would be an objectionable feature in connection with the Spring Ridge proposed tank and asks that some other process of cleaning the tank be adopted. This is where the hitch comes in, as Mr. Jeeves can see no way by which the plan of operating the tank can be changed without creating a nuisance in the vicinity of the tank. The tank will stand. Mr. Jeeves further stated that he has been informed that one of the property holders at least will not sign the agreement until the city has purchased his property. The council will consider this next phase of the problem at the adjourned meeting to be held tomorrow evening.

**How About Cops and Sausers.**—Next time you need some, give us a call. We have a variety of 44 and 38 calibre revolvers in price from \$1 per dozen to \$3.50 per dozen. Blue willow, brown, pink, green, pencil white and gold, etc. R. A. Brown & Co., 80 Douglas street.

Fancy Tweed Outing Suits, half lined, \$9.00 and \$10.00. B. Williams & Co.

**291 Prizes.**—The oldest, largest and most reliable sweep in B. C. is to be held at the Strand Hotel, Vancouver. Tickets on sale at Morris' cigar store, \$1.00 each. 291 prizes, limit, \$10,000.

**Try Dora & Hilda's Marvelous Rheumatic Lotion.**  
Fancy Hosiery and Underwear for spring and summer. B. Williams & Company.

**Garden Hose at Cheapside.**  
When using a disinfectant, always use the most reliable, and to accomplish which you must seek out the most reliable place to get it. A person who has a garden hose, and a copy of 4th page of this paper will make this task dead easy.

A black bag containing some money, two watches, letters, bunch of keys and other articles was left in the Esquimalt car at 9:30 last evening. The finder will be rewarded for returning the same or at least the letters and keys, which are most valued by the owner, to 55 Douglas street.

English Negligee Shirts at 75c \$1.00, \$1.25 and \$1.50. B. Williams & Co.

Use telephone to Duncans.

**Annual Meeting.**—The annual general meeting of the shareholders of the Mt. Sicker and Brenton Mining Co., was held yesterday afternoon. No business was transacted, an adjournment being taken subject to the call of the next meeting on Friday afternoon. Dr. Hermann Robertson, city health officer, will give a talk on how the teachers may co-operate with the health authorities to prevent the spread of contagious diseases in the schools. There will be a short programme and the election of officers.

**Interesting Session Assured.**—At the regular meeting of the Victoria Teachers' Institute on Friday afternoon, Dr. Hermann Robertson, city health officer, will give a talk on how the teachers may co-operate with the health authorities to prevent the spread of contagious diseases in the schools. There will be a short programme and the election of officers.

**New Mining Section.**—Captain John Irving, who returned the other day from a visit of inspection to the Teton district, is showing some splendid specimens which he obtained in that section. Indications are that the country will prove very rich in mineral, and ultimately be the scene of much mining activity. The presence of deposits, which will be opened up on a comprehensive scale by the Grand Trunk Pacific Railway Company, ensures for the district a permanency as an industrial centre which is lacking in districts where metalliferous mines are the only resources.

**Library Commissioners.**—Now that the Carnegie library building has been completed and shortly after the opening of the corporation, a first duty of the council will be to appoint a board of library commissioners in accordance with the provisions of the bylaw by which the donation from Mr. Carnegie was accepted. This board of library commissioners is to consist of three persons, one of whom must be a member of the council. They shall be appointed annually and shall act without remuneration. It is probable that Mr. Stewart will be chosen as the council's representative on the board.

**Chinese Liquor Sellers.**—That Chinese shopkeepers are selling liquor under a license any sort is said to have been discovered within the past few days, and at the instance of Ald. Fell, the mayor is instituting an enquiry into the matter. It will be recalled that at the last year's great hullabaloo caused by a similar discovery, enquiries instituted by the Licensed Vintners' Association revealing the fact that the Chinese had been permitted to sell by retail, although only selling wholesale. The license was immediately cancelled and since then nothing has been heard of the matter, but it would appear that the Chinese are at their old tricks again. It is declared by those who are conversant with the matter that the Chinese annually dispose of a very large quantity of liquor, not alone Chinese wines, but the sort of "booze" which white men drink, and this, too, to white men.

## OBITUARY.

A pioneer resident of Victoria district and the province passed away yesterday at his home, the residence of John Camp, proprietor of the Prairie Hotel, Sault Ste. Marie, Ontario. Deceased, who was a native of Chesterfield, Derbyshire, England, and aged 62 years, came to Victoria in 1863, having been attracted here by the gold fever. He was engaged in the lumber trade in the latter district for a number of years and was fairly successful. On his return to the Coast he went out with several survey parties and accompanied the surveyors with the townsite of Vancouver. On giving up that vocation he took over the Royal Oak hotel, which he conducted for a period of thirteen years. Sixteen years ago he sold out the Royal Oak and removed to Sault Ste. Marie, becoming proprietor of the Prairie Hotel, which business he was conducting at the time of his death. A widow and one daughter, Miss Marion Camp, are left to mourn his loss. He was a member of Court Vancouver Lodge, A. O. U. W. The Pioneer Society and the Orange lodge. The funeral arrangements will be announced later.

Charles Beadnell, who resided in the province for a considerable time, passed away recently at his home in Wales. A number of relations are residents of British Columbia.

## HAIR WON'T FALL OUT

If You Kill the Dandruff Germ With the New Treatment.

John A. Fuller, a well known citizen of Colfax, Wash., writes: "I had dandruff so badly that it caked on my scalp. Herpicide completely cured me." George H. McWhir, of Walla Walla, Wash., writes: "Herpicide completely cured me of a bad case of dandruff of 20 years' standing." They took the only really sensible treatment, a remedy that destroys the dandruff germ—No. 1 Herpicide. Stop dandruff, hair won't fall out, but will grow naturally, luxuriantly. Always itching instantly and makes hair glossy and soft as silk. One bottle will convince you of its merits. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich. C. H. Bowes & Co., 98 Government street, Special Agents.

**Sale Opens.**—The sale at the Elite millinery store commences today, when great bargains are promised in trimmed and ready-to-wear hats, silk ribbons, millinery trims, and all the latest in millinery. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich. C. H. Bowes & Co., 98 Government street, Special Agents.

**L. Eaton & Co.'s sale of the Bales estate starts today at 2 o'clock.** The list includes some very elegant mahogany furniture and expensive dinner sets. For the convenience of those who do not know the location of the house, the warehouse on Esquimalt road just across Point Elsie bridge, and another one on the Indian reserve for those who may come that way. With the above directions there will be no difficulty in finding the place.

As may be seen by Mr. Redfern's ad. on 5th page, that gentleman's name appears upside-down in print, which matters but little in which position either his name or his wares are placed. The advertisement, however, is a good one, and the indicators that mark the fleeting moments may always be depended upon for exactness in time.

## BRITISH COLUMBIA APPLES

Find Favor in London With Firm of Big Dealers.

A Canadian Associated Press despatch from London says that a representative of the Garcia-Jacobs Co., Covent Garden apple importers, stated that Mr. Garcia, who was one of the judges of the colonial exhibition, was very much impressed with the quality of British Columbia apples, especially Oregon New Town variety. In consequence of this, his and other large firms will be willing to do business provided the railway companies give favorable freight rates and necessary cold storage. This will act in opposition to the United States, but is not thought likely to affect the output from Eastern Canada, which are of a different variety. Referring to the reported combine of Canadian apple growers, the representative did not take it very seriously. That such a combine was being considered is vouched for by the fact that the Canadian High Commissioner's office sent a representative to interview various importers. Their reply was that such a combine would tend to turn the apple trade from Canada to the United States, as importers here did not feel inclined to buy from those growers who would attempt to put their produce on the market without the medium of importers. Garcia said they could obtain all the apples they required from the States if necessary.

## BROUGHT DOG FROM MANCHURIAN FIELD

Count Keller Brings Animal Which Lay Beside His Uncle's Body at Motienling.

Count Keller, a nephew of the famous Russian fighting general, Count Keller, killed at Motienling, arrived by the Empress of India yesterday, bringing a Russian wolf-hound, which had been found lying on the body of the Count's uncle, the dead general.

The battle of Motienling—Heaven-reaching Pass—was a hard-fought engagement, and Count Keller fought valiantly to invigorate his retreating batteries. It was then that a Japanese shell burst near by and killed the general. When the sanitary corps came to the field and found his body, the faithful hound lay across it, barking at the stretcher-bearers who came to carry off the noble dead. When the body was removed, the dog fell into the hands of Chinese, and later was secured by a Japanese officer, who brought the animal to Japan and presented it to a gentleman resident in Yokohama. When the nephew of the general, Count Keller, an officer of the Russian fleet, was in Japan, he was presented to him, and he is extremely anxious to take the faithful animal to Russia.

Count Keller, on arrival by the Empress of India yesterday, was anxious because he had been informed that permission might be given him to take the animal through Canada.

"I do hope I can get the dog to Russia, but I am told there will be trouble in getting permission to take the animal through Canada and across the Atlantic. I should so like to get the dog to Russia as my uncle on the battlefield," he said.

Count Keller added that his uncle had been quite attached to the dog, which, he believed, was a full-bred Russian wolf-hound. Several instances have been told by the Russians of dogs of officers left behind on the battlefields. In the earlier stages of the war, a party of war-correspondents came upon a Russian wolf-hound during the retreat from Wafankou. The unfortunate animal was standing at bay against a tiled entrance to a Chinese compound in a small walled village by the side of the railway. A dog or more mongrel pariahs were animals which had fed on the dead of a nearby battle—were yelping at the well-bred beast, which slunk back in a corner.

And there the party left it.

The C. P. R. Wharf—The announcement was made yesterday that the contract for the addition to the new C. P. R. wharves on James Bay has been awarded to the Vancouver Construction Co., which is composed of Messrs. J. J. Nielsen, Ralph Nielsen and T. F. McMillan.

Lectures Tonight—Very great interest attaches to the lecture to be delivered this evening in St. Andrew's Presbyterian church by Rev. Dr. Milligan, and it is anticipated a very large audience will be present. The eloquent divine will take for his subject "Wants That We Want," and a special program has been arranged for the occasion.

"The Red Feather."—There are many who say that De Koven's latest score, "Red Feather," which comes to the Victoria, on the 16th, is better than his earlier success, "Robin Hood." Some of these are students of the best class of music. "Red Feather" was written especially for Grace Van Staudford, a prima donna, and has no superior in light opera. Besides the inheritance of a superb voice, she has a magnificent stage presence and an ability to act that is indeed rare. In "Red Feather" Reginald De Koven has written music especially to suit her, so one can imagine the treat in store. A gorgeous production has been given to the piece. The ballroom scene is a revelation even in these days of gorgeous stage mountings. The book of "Red Feather" was written by Charles Klein and the lyrics by Charles Emerson Cook.

## NOTED GUESTS AT THE WASHINGTON.

Mr. John C. Freund, Editor of the Music Trades, and His charming Wife Are Guests at the Washington.

"After six thousand miles of travel for the past four months, which included visits at all the principal cities between New York and Seattle," said Mr. Freund in an interview last evening. "We find ourselves most delighted with the city and the magnificent hotel. I am looking forward to a return visit, when we shall be present at the opening of your new Moore Theatre, which I understand will be unequalled in this country."

The Washington orchestra gave an especially fine program for the Sunday music during the afternoon and evening, and was greatly enjoyed by Mr. Freund, who is one of New York's most famous music critics.—Seattle Times.

## Everett Wins Opening Game

Damage Was Done In First Inning After Which Game Was a Good One.

Many Spectators Witness Inauguration of Professional League Ball.

The first game of the Northwestern Professional Baseball League series of 1905 took place at Oak Bay yesterday, Everett being the victors by a score of 5 to 1.

The day's proceedings opened with a parade of the ball tossers of both teams in hacks, preceded by the band. After parading the main thoroughfare, the players proceeded to the Oak Bay grounds, where they were awaited by a large crowd who had already assembled despite the threatening weather. The game began with a safe hit. Hulen did the same; Earle, the same little "Work hard, Earle," who played for Victoria last season, followed the leader, and the bases were full. Then two batters really hunted the ball, and Holfness became somewhat rattled. Steele got first on a fielder's choice, Jacobs being forced off the plate; Mackie bunted, Holfness hit to McManus to catch Hulen, but Mac dropped the ball; Sullivan hit it out, scoring Earle. Brundage sacrificed; Pringle hit it out, scoring Steele and Mackie, Pringle going out at second.

But the damage was done, and the game lost, and the bunch of loyal Victoria boys had no chance of cheering for the boys. Victoria scored one and the only run, in their half of the first inning. Daley was given first on being hit by the pitcher, Ford, struck out, Hutchison got a base on balls, McManus hit one to second, who allowed it to get away from him, and Daley scored. Williams hit up a little pop fly to first and retired the side.

The visitors could score no more after this until the ninth inning, when they got home one run on an error by Hawlett and a couple of safe hits. The locals tried ever so hard to get in a few tallies, but they were at no time dangerous to the Everett bunch.

In the second Hulen and Earle pulled off a very neat double play. After Downing had made two batters, Burns hit up a little fly to Hulen, who threw to Earle, catching Downing off second by several feet. In the eighth inning Ford and Downing made a double, doubling up Mackie and Earle.

Everett has a fast company of players, who are sure to make a stir in the race for the pennant. Their team is not yet completed, as they will have Houtmiller, outfielder, and Strub, catcher, join them next week. They will give them a splendid team—one that will be well worth watching this season.

The local nine played good ball insofar as their field work went, but as hitters

## CORTICELLI HOME NEEDLEWORK.

The second quarter of Corticelli Home Needlework Magazine is now being mailed to subscribers. The publication is bristling with valuable information that is of great interest to ladies on Summer Frocks for Little Girls; Monogrammed Neckties; Lace Brackets; Homestead Hardanger Centrepieces; Dress Accessories; Black Silk Duchess Lace; Tinted White Linen Centrepieces; Coat of Arms Pillow Designs; Home-made Lingerie Blouses; The New Duchess Lace; Norwegian Sofa Pillow Designs; Hardanger Embroidery for Shirtwaist Decoration; The Baby's Wardrobe; Furbelows and Flings for the Summer Girl; Embroidered Collar and Cuff Sets; Floral Pillow Designs on Black Ticking; A Practical Lesson on the Making of Shirt Waists, etc., etc. The Magazine is profusely illustrated with colored and half tone plates. It is certainly one of the most useful editions yet published, and those who have not seen a copy should secure one without delay. 35 cents pays for a single copy, and 50 cents for a year's subscription. ## TO COME BACK.

U. S. Immigration Officer Bridges at Tacoma, has ordered that the four Chinese arrested on the steamer Leclanaw and barge John C. Potter, and charged with being illegally in the United States, are to be returned to British Columbia.

Blockaders Coming. Steamer Tatar, which left Yokohama on the 4th instant for this port, has on board among her passengers Captain Connaught, of the steamer Tacoma, which has been condemned by the Japanese prize court at Yokohama for having attempted to run the blockade to Vladivostok. There are several vessels en route across the Pacific from Yokohama.

## RUSSIANS TOOK FLOUR.

Mill Company Starts Suit to See Who Is to Pay for Losses.

For the purpose of determining who will have to stand the loss of a part of a carload of flour taken from the steamship Pelades by Russian soldiers while she was off Port Arthur in February, 1904, libel proceedings were commenced in the federal court at Vancouver by the Central Mill Company. The amount asked for is \$15,000, alleged in the libel to be the amount lost to the shippers by failure to deliver the cargo at Port Arthur, according to contract.

## FIRE ON PELADES.

Blaze in Steamship's Cotton Cargo Extinguished After Hard Fight.

Steamer Pelades of the Boston Teugboat Company, calling at Seattle, was attacked with destruction on Monday evening by a fire which started in her cotton cargo. As it is, it is thought that the ship is unharmed, and that the fire was confined to that portion of the cotton which was between decks in the after-part of the Pelades, where the fire originated. So far as could be ascertained the damage was not more than \$5,000, but as there is still much water in the lower hold of the ship, which contains some 700 bales of cotton, this amount may be greatly exceeded.

## BOUGHT THE MERMAID.

Sealing Schooner Acquired by Marine Department.

Schooner Mermoid, belonging to the Victoria Sealing Company, has been purchased by the Department of Marine and Fisheries and will be used as a lightship at the mouth of the Fraser river. It was generally reported that a sale had taken place some days ago, but a denial was given by the secretary of the sealing company, Eschmura, who had been obtained by Captain Gaudin, local agent of marine, regarding the cost of fitting up the schooner. The Mermoid is a strongly built vessel, built at

## HAD TO HIDE IT

A MOTHER wrote us recently that she had to keep Scott's Emulsion under lock and key—her children used to drink it whenever her back was turned. Strange that children should like something that is so good for them. It's usually the other way.

## Scott's Emulsion

makes children comfortable, makes them fat and rosy-checked. Perhaps that's why they like it so much—they know it makes them feel good.

Older people, too, who are thin or delicate will find Scott's Emulsion a wonderful strength-giver and flesh-builder.
